

3-channel palm-sized electroacupuncture

ES-130

- *For busy clinics that require multiple units*
- *Well suited for out of office use*
- *Low/High intensity settings*
- *Built in battery checker*

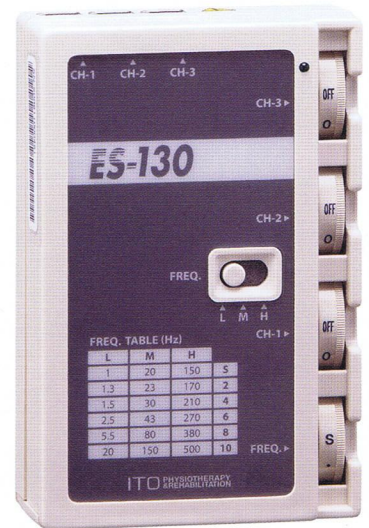

CE 0123

3-channel palm-sized electroacupuncture

Features

- High Performance and Versatility
 - Low/High intensity settings
 - Frequency selector offers a complete frequency range (1–500Hz)
 - Suitable for needles
- Unique Wave Form
 - Unique wave pulse minimizes excessive charge build up in the tissue and damaging the nerve
- Safe, Reliable, and Easy to Use
 - Each of the 3 channels are independently controlled
 - Special dial controls allow easy use yet safe operation
 - Built in battery life check with indicator light

Specifications

- Power supply:** One 9 V battery
Frequency: 1–500 Hz, variable
Maximum output voltage: 30 V ± 15% (at 500Ω laod)
Current amplitude (max.): 14 mA ± 20% (rms, at 500Ω laod)
Phase duration: 100 μs
Number of channel: 3
Others: Battery checker
Pulse rate indication

- Safety class:** Internally powered equipment
Type BF (IEC), Class IIa (MDD)
Dimensions: 63 (W) × 96 (H) × 27 (D) mm
Weight: 120 gr. (excluding battery)

Ordering Data

Standard Kit

ES-130 complete with standard accessories, including

- 1 × 260182 Carrying bag
- 1 × 180432 Electrode cable (white)
- 1 × 180433 Electrode cable (yellow)
- 1 × 180434 Electrode cable (green)
